The Maui Recovery Treatment Program

At Maui Recovery, we've created a Treatment Program combining holistic wellness, best-practice treatment, and nature and transformative experiences in order to achieve lasting recovery.

On the magical, mythical island of Maui, each struggling addict undertakes their own Hero's Journey to overcome personal struggles and find the purpose and passion of their lives. This journey takes place in a safe, nurturing and healing environment that provides a space for individuals to find the serenity to do the meaningful inner work while growing spiritually as part of a supportive family community.

We get to witness our clients' transformation and growth in mind, body, and spirit every day. They get to go inward and dispel the false messages that have been running their lives and discover the truth about who they really are. It is from this place that fear, shame, and maladaptive behaviors begin to fall away and lose their grip. Our clients begin to discover self-worth and self-esteem and, in the process, they uncover their True Selves.

Maui Recovery believes that the ultimate gift is not just living drug or alcohol-free but to self-actualize and live the life of your dreams.

"Maui Recovery is a place for anyone to go at any point in life. At Maui Recovery, I truly grew. I started peeling back the layers and getting to the root of who I am and what made me the person I am. I discovered who I am, what I love doing, and most of all ... a purpose in life and a reason to be sober. I wouldn't say my eyes were opened here because, in truth, it was my heart that needed to open and heal, and that's exactly what happened, all thanks to this phenomenal program."
